2021 Annual Report

Our supporters make our work possible. And for that, we are truly grateful.

What you'll see in this annual report isn't simply a list of organizations and people who financially support our work but a powerful reflection of our supporters' shared commitment to a better world and the common good.

The list embodies a belief in the power of bridging divides and breaking down the social, political, and institutional barriers to achieving a prosperous net-zero carbon economy that benefits all.

Thank you for making us your partner in ushering in a better world. We are grateful.
